

2015 NAPA Quality in Construction Awards Earned by Maine Contractors

Overview

NAPA's Quality in Construction Awards Program recognizes pavements constructed in sustainable and/or innovative ways. Each pavement has to qualify for an award in the Quality in Construction categories — Airport Pavements, General Pavements (under 50,000 tons), or Highway Pavements (over 50,000 tons). An optional section on the nomination form allows applicants to highlight the adaptability and sustainability of the asphalt used on the project. The Green Award (🌱) is earned by contractors for their use of sustainable practices in the construction of an asphalt pavement.

Quality in Construction Airport Pavement Award

GREEN AIRPORT PAVEMENTS

The Lane Construction Corp.

Bangor

Waterville Robert LaFleur Airport, Runway 5/23 🌱
